

COMPARISON OF CLASSIFICATIONS

PTERIDOPHYTES AND GYMNOSPERMS:

Flora Reipublicae Popularis Sinicae (FRPS) and *Flora of China (FOC)*

Table 1: Comparison of *FRPS* and *FOC* classification of pteridophyte and gymnosperm families sorted by *FRPS* volume and page number (i.e., first page of the family or first generic treatment). *FRPS* families in **boldface** have the same delimitation in *FOC*. Those marked with an asterisk* have two accounts, in volume 2 and again in volume 6(1).
